

ATCCS 2025

BEYOND THE HORIZON

Asia Thoracic Cancer Care Summit

19th - 20th June, 2025 · HONG KONG

Molly SC LI

Assistant Professor

Department of Clinical Oncology

Faculty of Medicine

The Chinese University of Hong Kong

Dr Molly Li is a thoracic medical oncologist who works as clinical assistant professor in the Chinese University of Hong Kong. His research interests in lung cancer include screening, translational and biomarker research, as well as drug development. He is the site principal investigator of multiple sponsor-initiated and investigator-initiated drug trials and screening study. He has published in respected journals such as JAMA Oncology, Lancet Respiratory Medicine, Journal of Thoracic Oncology and Lung Cancer, and serves at the international advisory board for Lancet Respiratory Medicine. Dr Li is a member of ASCO / ESMO / IASLC (International Association for Study of Lung Cancer) / ATORG (Asian Thoracic Oncology Research Group) / CTONG (Chinese Thoracic Oncology Group). He is also an invited speaker in multiple locoregional conferences and ESMO educational courses.
